

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION III
1650 Arch Street
Philadelphia, Pennsylvania 19103-2029

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

OCT 26 2017

Mr. Anthony DiMaio
Operations and Safety Manager
Superior Concrete Materials, Inc.
1601 S Capitol St. SW
Washington, DC 20003

Re: Information Request for Superior Concrete Materials, Inc.

Dear Mr. DiMaio:

The United States Environmental Protection Agency, Region III (EPA) hereby requires Superior Concrete Materials, Inc., located at 1601 S. Capital Street, SW, Washington, DC 20003 ("Superior" or "the Facility") to provide certain information as part of an EPA investigation to determine the Facility's compliance with applicable standards and requirements under the federal Clean Air Act, 42 U.S.C §7401 et seq., (CAA or the Act).

Pursuant to Section 114(a) of the CAA, 42 U.S.C. §7414(a), the Administrator of EPA is authorized to require any person who owns and/or operates an emission source to establish and maintain records, make reports and provide such information as he/she may reasonably require for the purposes of determining whether such person is in violation of any provision of the Act. In order for EPA to determine whether a violation has occurred, you are hereby required, pursuant to Section 114(a) of the CAA, to provide responses to the following questions and requests for information regarding your facility. Therefore, you are hereby required to respond to questions and requests for information in Enclosure 2 (see Enclosure 1 for instructions and definitions). All information submitted in response to this request must be certified as true, correct, accurate, and complete by an individual with sufficient knowledge and authority to make such representations on behalf of Superior. On the last page of your response(s) to this questionnaire, please include the certification contained in Enclosure 3.

Failure to provide the required information may result in the issuance of an Order requiring compliance with the requirements, or the initiation of a civil action pursuant to Section 113(b) of the Act, 42 U.S.C. §7413(b). In addition, Section 113(c)(2) of the Act provides that any person who knowingly makes any false statement, representation, or certification in, or omits material information from any document required pursuant to this Act shall upon conviction be punished by a fine pursuant to Title 18 of the United States Code, or by imprisonment for not more than two years, or both. The information you provide may be used by EPA in administrative, civil and criminal proceedings.

Under 40 C.F.R. Part 2, Subpart B, you may assert a claim of business confidentiality for any portion of the submitted information. You must specify the page, paragraph, and sentence when identifying the information subject to your claim.

This request is not subject to the Paperwork Reduction Act, 44 U.S.C. § 3501 et seq., because it seeks the collection of information from specific individuals or entities as part of an administrative action or investigation. To aid in our electronic recordkeeping efforts, please provide your response to this request for information without staples. Paper clips, binder clips, and 3-ring binders are acceptable.

EPA requires Superior to submit the information requested in Enclosure 2 no later than thirty (30) calendar days after receipt of this letter. Please submit your response to this request to:

Ms. Zelma Maldonado, Associate Director
U.S. Environmental Protection Agency Region III
Office of Air Enforcement & Compliance Assistance (3AP20)
1650 Arch Street
Philadelphia, PA 19103-2029

If you have any questions regarding this information request, please contact Jim Adamiec, of the Office of Air Enforcement & Compliance Assistance at 215-814-2175.

Sincerely,

Cristina Fernandez, Director
Air Protection Division
U.S. Environmental Protection Agency, Region III

cc: Cecily Beall, DCDOEE, 1200 1st Street NE, 5th Floor, Washington, DC 20002

ENCLOSURE 1

A. Instructions

1. Please provide a separate narrative response to each question and subpart of a question set forth in this Information Request.
2. Indicate on each document produced in response to this Information Request, or in some other reasonable manner, the number of the question to which it corresponds.
3. Provide as much information possible to completely answer each question. This includes all supporting documentation, such as performance test reports, inspection records, memorandums, facility records, etc. Failure to completely respond to any questions may increase the time necessary to determine compliance with all applicable regulations.
4. For each document provided in response to these questions, provide an accurate and legible copy, which can be used to determine completeness of this request. For any information submitted electronically, clearly label to which question(s) the data is responsive.
5. When a response is provided in the form of a number, specify the units of measure of the number in a precise manner.
6. Where documents or information necessary for a response are neither in your possession nor available to you, indicate in your response why such documents or information is not available or in your possession and identify any source that either possesses or is likely to possess such information.

B. Definitions

1. All terms used in the Information Request will have their ordinary meaning unless such terms are defined in the Act, 42 U.S.C Section 7410 or 40 C.F.R. Part 60, Part 61, or Part 63. The term "Facility" shall mean the Superior Concrete Materials, Inc. facility, located at 1601 S. Capital Street, SW, Washington, DC 20003.
2. EPA Region III includes the states of Maryland, Pennsylvania, Virginia, West Virginia, Delaware and the District of Columbia.

ENCLOSURE 2

1. Provide a copy of any current or past air permits issued to the Facility, including, specifically, the minor air permit issued to the Facility by the DC Department of Energy and Environment (“DC DOEE”).
2. During the May 3, 2017 inspection conducted by EPA, representatives for the Facility indicated that production operations would cease in early 2018, because a highway extension is slated to move through the current property and displace the Facility. Provide any documentation that supports your planned shutdown date, and indicate whether that target date is still expected to occur.
3. For each dust collector located at the Facility, explain how 99% efficiency is met.
4. In regards to the Dry Batch Plant, please confirm that the generator is the only source of power to this process unit.
5. Initiate a perimeter air monitoring program at the Facility (see appendix 1 – Continuous Air Monitoring Program). The air monitoring program should include the dust control plan (Dust Control Plan) requested by DC DOEE on December 16, 2016 during the permit application process. The Dust Control Plan serves to describe how the Facility complies with *40 CFR Part 52 Subpart J – District of Columbia Approval and Promulgation of Implementation Plans* and *DCMR Rule 20-605, Control of Fugitive Dust*.

The Dust Control Plan must include, at a minimum:

- i. Facility name and location
- ii. Site map showing clearly defined facility property lines
- iii. Identify each source of potential fugitive emissions, such as process units, roadways, storage piles. Identify all activities at the Facility that may create potential dust emissions, such as each material loading and unloading point, or on-site material transfers.
- iv. Identify the control method, if any, for each source of potential fugitive emissions. Examples include: dust collectors, water suppression, physical barriers, vehicle tarps, etc.
- v. Explain how trackout (any material deposited on offsite roadways by vehicle traffic) will be prevented.

ENCLOSURE 3
STATEMENT OF CERTIFICATION

[This Certification is for signature by the president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or another executive with authority to perform similar policy or decision-making functions of the corporation.]

Superior is submitting the enclosed documents in response to the U.S. Environmental Protection Agency's ("EPA") request for information, issued pursuant to Section 114(a) of the Clean Air Act, to determine whether the facility is in compliance with the Clean Air Act.

I certify that I am fully authorized by Superior to provide the above information on its behalf to EPA.

I certify under penalty of law that I have personally examined and am familiar with the statements and information submitted in the enclosed documents, including all attachments. Based on my inquiry of those individuals with primary responsibility for obtaining the information, I certify that the statements and information are, to the best of my knowledge and belief, true, correct, accurate and complete. I am aware that there are significant penalties for submitting false statements and information, or omitting required statements and information, including the possibility of fines and imprisonment for knowing violations.

ENCLOSURE 4

Confidential Business Information (CBI)

You may assert a business confidentiality claim covering all or part of the information requested in response to this information request for any business information entitled to confidential treatment under Section 114(c) of the Clean Air Act (the Act), 42 U.S.C. § 7414, and 40 C.F.R. Part 2, subpart B. Under Section 114(c) of the Act, you are entitled to confidential treatment of information that would divulge methods or processes entitled to protection as trade secrets. Under 40 C.F.R. Part 2, subpart B, business confidentiality means “the concept of trade secrecy and other related legal concepts which give (or may give) a business the right to preserve the confidentiality of business information and to limit its use or disclosure by others in order that the business may obtain or retain business advantages it derives from its rights in the information.” See 40 C.F.R. § 2.201(e).

Information covered by a claim of business confidentiality will be disclosed by EPA only to the extent, and by means of the procedures, set forth in Section 114(c) of the Act and 40 C.F.R. Part 2, subpart B. EPA will construe your failure to furnish a business confidentiality claim with your response to this information request as a waiver of that claim, and the information may be made available to the public without further notice to you.

To assert a business confidentiality claim, you must place on (or attach to) all information you desire to assert as business confidential either a cover sheet, stamped or typed legend, or other suitable form of notice employing language such as “trade secret,” “proprietary,” or “company confidential” at the time you submit your response to this information request. Allegedly confidential portions of otherwise non-confidential documents should be clearly identified, and may be submitted separately to facilitate identification and handling by EPA. You should indicate if you desire confidential treatment only until a certain date or until the occurrence of a certain event.

The criteria EPA will use in determining whether material you claim as business confidential is entitled to confidential treatment set forth at 40 C.F.R. §§ 2.208 and 2.301. These regulations provide, among other things, that you must satisfactorily show that: (1) the information is within the scope of business confidentiality as defined at 40 C.F.R. § 2.201(e), (2) that you have taken reasonable measures to protect the confidentiality of the information and that you intend to continue to do so, (3) the information is not and has not been reasonably obtainable by legitimate means without your consent, and (4) the disclosure of the information is likely to cause substantial harm to your business’s competitive edge. See 40 C.F.R. § 2.208 (a)-(d). Emission data, as defined at 40 C.F.R. § 2.301(a)(2), is expressly not entitled to confidential treatment under 40 C.F.R. Part 2, subpart B. See 42 U.S.C. § 7414(c); 40 C.F.R. § 2.301(e).

If you assert a claim of business confidentiality in connection with information and documents forwarded in response to this request for information, in accordance with 40 C.F.R. § 2.204(e)(4), EPA is requesting that you answer the following questions with respect to any information or document for which you assert a claim of business confidentiality:

1. What specific portions of the information are alleged to be entitled to confidential treatment? Specify by page, paragraph, and sentence when identifying the information subject to your claim.
2. For what period of time do you request that the information be maintained as confidential, e.g., until a certain date, until the occurrence of a specified event, or

permanently? If the occurrence of a specific event will eliminate the need for confidentiality, specify that event. Additionally, explain why the information should be protected for the time period you've specified.

3. What measures have you taken to protect the information claimed as confidential from undesired disclosure? Have you disclosed the information to anyone other than a governmental body or someone who is bound by an agreement not to disclose the information further? If so, why should the information still be considered confidential?
4. Is the information contained in any publicly available material such as the Internet, publicly available databases, promotional publications, annual reports, or articles? Is there any means by which a member of the public could obtain access to the information? Is the information of a kind that you would customarily not release to the public?
5. Has any governmental body made a determination as to the confidentiality of the information? If so, please attach a copy of the determination.
6. For each category of information claimed as confidential, explain with specificity whether disclosure of the information is likely to result in substantial harm to your competitive position. Explain the specific nature of those harmful effects, why they should be viewed as substantial, and the causal relationship between disclosure and such harmful effects. How could your competitors make use of this information to your detriment?
7. Is there any other explanation you deem relevant to EPA's determination of your business confidentiality claim that is not covered in the preceding questions? If so, you may provide such additional explanation.

You must furnish comments to the above questions concurrent with your response to this information request if you have claimed any information as business confidential. See 40 C.F.R. § 2.204(e)(2). Pursuant to 40 C.F.R. § 2.205(b)(2), you may request an extension of this deadline. EPA will construe your failure to furnish timely comments as a waiver of your confidentiality claim, consistent with 40 C.F.R. § 2.204(e)(1).

Pursuant to 40 C.F.R. § 2.205(c), you are hereby advised that information you submit as part of your comments may be regarded by EPA as entitled to confidential treatment if, when it is received by EPA, it is marked in accordance with 40 C.F.R. § 2.203(b). As required by 40 C.F.R. § 2.204(e)(6), you may assert a business confidentiality claim covering all or part of your response to these questions, as provided in 40 C.F.R. § 2.203(b). Information covered by such a claim will be disclosed by EPA only to the extent, and by means of the procedures, set forth in Section 114(c) of the Clean Air Act (the Act) and 40 C.F.R. Part 2. EPA will construe the failure to furnish a confidentiality claim with your comments as a waiver of that claim, and the information may be made available to the public without further notice to you.

Appendix 1 – Continuous Air Monitoring Program

Continuous monitoring of particulate matter less than 10 microns (PM10) should be conducted during site operational hours. The monitoring program must meet the following criteria:

1. Two monitors must be used. One should be located on the north side of the facility near Potomac Avenue, the other should be located on the south side of the facility near R Street.
2. Reasonable effort should be made to follow the siting criteria detailed in Code of Federal Regulations (CFR) Chapter 40 Section 58, Appendix E. Though strict compliance with standard siting criteria cannot be expected for a monitoring exercise of this scope and objective, due consideration must be given to monitor placement guidelines. Where possible, monitors should:
 - i. Be situated near a facility entrance
 - ii. Be at least 2 meters above ground level
 - iii. Be at least 2 meters away from any structure such as walls
 - iv. Be 2-10 meters from the roadway
2. Air monitoring equipment must be calibrated and maintained according to the manufacturers recommendation
3. A log of any monitoring system downtime (date, time, duration, and reason) must be maintained
4. Monitoring data must be collected and stored for a period of 12 months. The data must be provided to EPA on a monthly basis in an electronic form. The data must:
 - i. Be reported as a rolling 15-minute average. Each 15-minute average should contain the following:
 1. Time, date, and location of each reading
 2. The recorded PM10 mass concentration in mg/m^3
